Chula Vista Fire Department Introduces New Fire Company Inspection Program

Dear Chula Vista Business Community,

The City of Chula Vista Fire Department is implementing new fire and life safety inspection services through the Fire Company Inspection Program (FCIP). The purpose of the program is to reduce potential hazards through education and the enforcement of fire safety codes. Fire crews will also have an opportunity to become familiar with your business's physical layout (pre-plan), which is a great benefit if a real emergency were to occur. This new fire and life safety inspection program will be limited to "light hazard" commercial businesses classified in the California Fire Code as "B" (Business) and "M" (Mercantile) occupancies. Exterior commercial and residential site inspections will also be included in this service. An annual fee of \$105.00 will be charged for the FCIP service and will be invoiced with your business license renewal.

We anticipate inspections will begin later this fall. Please contact the Fire Prevention Division at (619) 691-5055 if you have any questions regarding this new public safety service.

The Chula Vista Fire Department looks forward to partnering with you to make your business fire safe.

Sincerely,

JUSTIN GIPSON, FIRE MARSHAL
